DESCRIPTION	<p>Our 2 inch round shaped RGBW LED ceiling light is a new style of flush mount lighting fixture designed for common drywall and ceiling mount. The 4 in 1 Epistar RGBW chips allow for RGB color changing abilities combined with the single channel cool white (6000-6500k) light output. Using 255 levels of dimming over the 4 channels you can create billions of color variations as well as a pure white output. To install simply mount this fixture in any circular drywall hole with a 2.16" diameter. Using only 8W of power when all 4 channels are at full output this 12V or 24V product provides energy saving, bright, programmable lighting to enhance the look of your space. Emits no UV or IR, RoHS and CE approved. For use only with compatible 12VDC or 24VDC Constant Voltage power supplies and 12-24VDC common anode 4 channel RGBW controllers.</p>
