DESCRIPTION	Inside the housing of our RGB LED flood light is 15 Epistar RGB 3 in 1 LEDs to produce bright and vivid lighting on walls, trees, buildings, architecture, sculptures, displays and signs. With the right RGB controller(s) this fixture can output over 16.7 million shades of color and can also be incorporated with other RGB lighting products. This light is encased in an IP65 water-resistant aluminum alloy shell. Tempered glass and stainless fasteners give this light long lasting outdoor use. The light can be controlled by RGB or DMX controllers using a 4-pin, 3-loop common anode connection. Each fixture has one female and one male connector, power can be input from either connector or both, we recommend no more than 2 flood lights be connected in a series when powered from one end. Each fixture includes one connector to bare wire and one end cap for the other connector lead. This product is non-submersible, RoHS and CE approved.
