RGB LED Globe Bulb GU10 Base 5W

PRODUCT NAME	RGB LED Spot Bulb GU10 Base 5W
URL	Click Here
DESCRIPTION	This RGB LED Spot Bulb with GU10 base has a projected life span of 30,000 hours and is designed to plug directly into any suitable 110-240VAC lighting fixture. In order to use the color changing features a specialized IR Remote is necessary. Control an unlimited amount of RGB LED bulbs with a single IR controller. Choose from 16 static colors with ten adjustable levels of brightness or choose from flash mode, strobe mode, fade mode, or smooth mode with ten adjustable levels of speed control. This bulb has a built in memory chip in order to retain the previous function once the power has been turned off and then back on. Consuming only 5W of power this bulb is a great energy saving and eco friendly product.
