Black plastic piece is thickest
on bottom of connector

1 Pull out plastic shelf
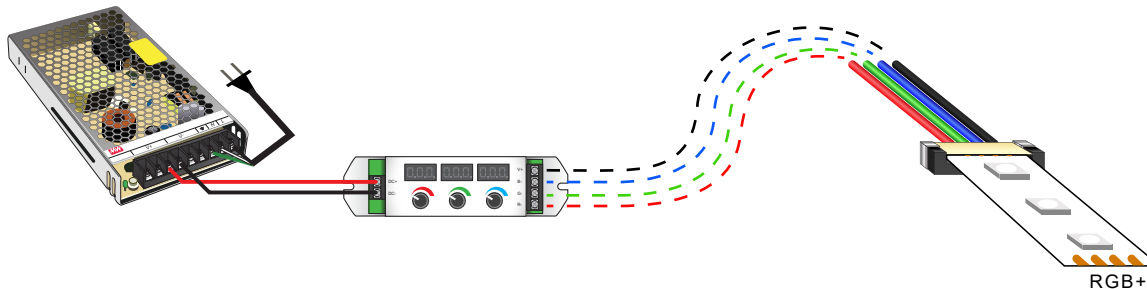

2 Slide in Strip

*Copper pads must go
under tan piece to conduct

3 Push in plastic shelf
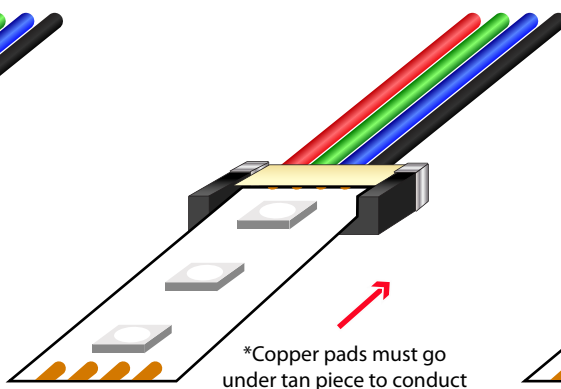

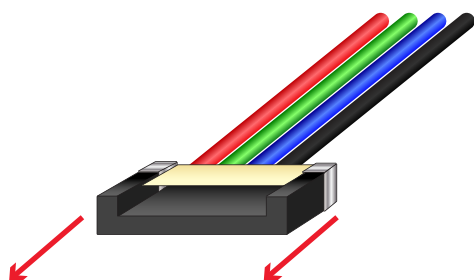

- Repeat Steps for Both sides, Check Polarity and wire to DC circuit
 *Strips will vary (most strips will be marked every 1/2 meter)

RGB+

- Installation Pointers when Using RGB Quick Connectors

*Strips will vary (most strips will be marked every 1/2 meter)

(1)

SKU: RL-SC-RS-RGB2-10
SKU: RL-SC-RS-RGB1-10
SKU: RL-SC-RS-RGB1B-10
SKU: RL-SC-RS-RGB24-10

If you install the connectors at each end of the strip the wire colors will be backwards at the opposing end. Refer to the printed marks on the circuit board for correct polarity.
