Waterproof Neon White LED Strip - ETL 24VDC - 197"

PRODUCT NAME Single Color LED Neon Flat Waterproof Side Emitting - ETL 24VDC - 197"(5m)

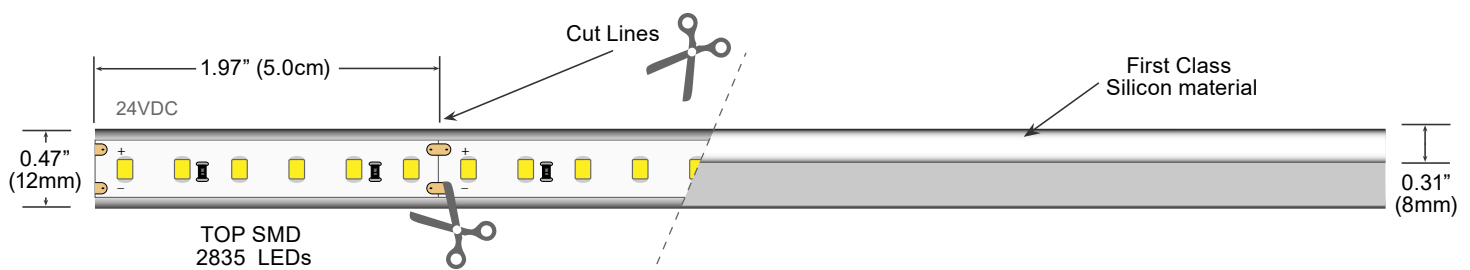

SKU White: LN-DX-NE-WH-FH-5 | Warm White: LN-DX-NE-WWH-FH-5

DESCRIPTION Our thin and flat topped side emitting LED neon white flex rolls have an 8mm strip inside to create a smooth, shadow free 6000K linear lighting from a smaller profile. They are perfect for making signs, designs on walls, embedding into surfaces, architecture, landscaping, or any indoor or outdoor application. The IP67 silicone housing creates a dust and water tight seal, while diffusing the LEDs below for no visible dots or hot spots. Use any of the glue and solder free quick connect options to make easy splices and connections throughout the flex strip. Each 5 meter roll (16.4ft) includes one solder assembly wire lead, one end cap, 10 mounting clips and 10 self tapping screws. The neon flex requires 24VDC input and a minimum of 3.51 watts per linear foot of lighting to power. ETL listed, RoHS and CE approved.

DIMENSIONS 197" x 0.31" x 0.47"H (5m x 8mm x 12mm)

LIFESPAN 50,000 Hours

WARRANTY 2 Year Manufacturers

*Each specification total is for a 197" (5m) roll unless otherwise noted.

SKU	Color	Length	LED Qty	LED Type	Ingress Protection	Lumen (lumen/ft.)	Beam Angle	Voltage (VDC)	Current (Amps/ft.)	Watts Required	Max Serial Connection
