PRODUCT NAME Single Color LED Neon Round Vertical Bend Top Emitting - ETL 24VDC - 197"(5m)

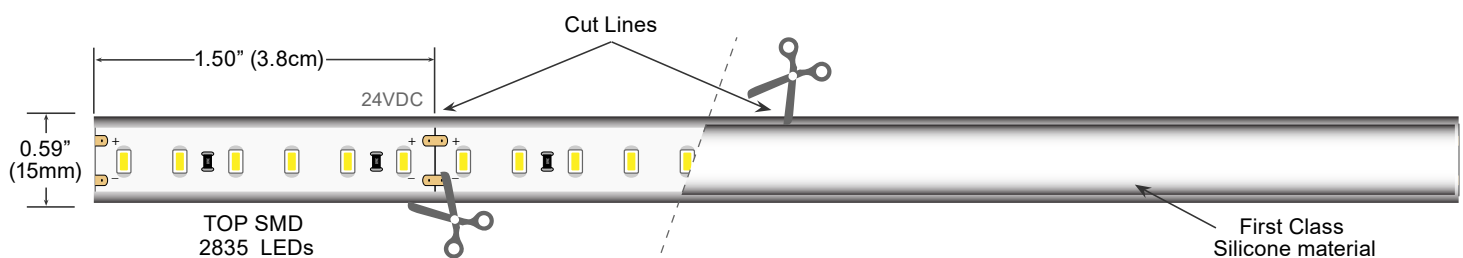

SKU White: LN-DX-NE-WH-RV-5 | Warm White: LN-DX-NE-WWH-RV-5

DESCRIPTION Each 5 meter roll of our top emitting round shaped 6000K LED Neon Flex strip is IP67 waterproof rated with a UV resistant dual core silicone housing to create bright dot free illumination with no shadows or hot spots. A 180° beam angle illuminates around all exposed sides of the round coating, resembling traditional neon without the harmful voltage or chemicals. This strip is designed to bend on a vertical axis and can be used to wrap perimeters, down light, up light, landscape, architecture, bars, clubs or anywhere needing a diffused, low voltage, linear light. This strip requires 24 volt DC input and consumes 3.51 watts of power per foot to operate. This strip can be cut and re-connected every 1.5" and comes with 1 extra wire lead setup, 1 end cap, and 10 plastic mounting clips. For additional quality and safety measures each roll is ETL listed, RoHS and CE approved.

DIMENSIONS 197" x 0.59" x 0.47"H (5m x 15mm x 12mm)

LIFESPAN 50,000 Hours

WARRANTY 2 Year Manufacturers

*Each specification total is for a 197" (5m) roll unless otherwise noted.
