| PRODUCT NAME | Slim LED Module White 170°, 12VDC |
| SKU | MD-LB-SS1-W |
| PRODUCT URL | Click Here |
| DESCRIPTION | <p>This amazingly slim LED Module is specially designed to illuminate the thinnest signage with no visible hot spots. The 7 port and 14 port cuttable quick connectors make setting up a lighting grid simple for any 1.5"-4.0" deep light box. The special lens creates a wider beam angle that allows for more light distribution in smaller spaces from a single 2835 type LED chip. Each module is attached to a flexible ribbon of PC board that is very simple to cut and reconnect using our available quick connectors. Boasting 0.72W and 55lm per module as well as an IP65 water-resistant rating these modules are bright enough for the slimmest signs, displays, or back lighting project. 42 modules maximum can be connected in one serial length, for larger jobs you must wire multiple 42 module units in parallel to the 12VDC power source. These modules have a 1 year warranty and are CE and RoHS approved.</p> |
| DIMENSIONS | 3.15" L x 0.79" W x 0.26" H (80 x 20 x 6.6mm) |
| SUPPLY VOLTAGE | 12VDC Constant Voltage |
| LED ATTRIBUTES | One 2835 SMD LEDs per module |
| MODULE SPACING | 3.15" center to center (80mm center to center) |
| MAX CONNECTION | 42 modules |
| LIFETIME | 50,000 Hours |
| OUTPUT POWER | 0.72W per module |
| BEAM ANGLE | 170° |
| COLOR TEMP | 6500-7000K |
| OPERATING TEMP | -13° ~ 140°F (-25° ~ 60°C) |
| CRI | ≥75 |
| CERTIFICATIONS | CE, RoHS |
| WARRANTY | 1 year manufacturers |
