DESCRIPTION Our 2 in1 Tunable White LED Strip Light has a 5050 size LED chip that has both a cool white and warm white color output. By dimming and brightening the levels of each color temperature you can fine tune the tint of white between 2500-6500 kelvin, to suit for the time of day or situation. Bright white light may be suitable for early morning, mid day, and task lighting projects. Warmer tones are more appealing for relaxing and entertaining. Each strip light roll is 5 meters in length (16.4ft) and has 6 LEDs every 4 inch cuttable section. Control this LED Strip using two LED dimmers or by using one of our specialized color temperature controllers. 24VDC, 5.85 Watts per foot, 100W per 5 meter roll. Cut and connect this strip every 4 inches for amazing temperature adjustable light in kitchens, living rooms, restaurants, bars, or any indoor application.
