Touch Sensor Switch for LED Strip Light Channels

PRODUCT NAME Touch Sensor Switch for LED Strip Light Channels, 12-24VDC 3A

SKU LC-KL-SENS-2

PRODUCT URL [Click Here](#)

DESCRIPTION Combine our LED strip lights and aluminum track assortments with this touch sensor on / off switch to create one of a kind touch activated light bars for any indoor lighting application. The touch spring allows you to touch the cover of your KLUS channel to turn your lights on and off as well as dimming control. This switch needs works best with our slimmer KL1 style extrusions and will need extra base height to work with our KL3 or deeper channels. You can either purchase just the on/off switch or switch plus dimming capability. This 12-24 volt strip light controller can control up to 3 amps of 12V or 24V Strip lights. Create your own custom lighting fixtures with simple on off and dimming control with just a touch of the hand.

INPUT POWER 12-24VDC constant voltage

CONNECTION TYPE Common Anode (+)

OUTPUT CURRENT 3A x 1 Channel

OUTPUT POWER 12VDC - 36Watts / 24VDC - 72Watts
