SKU	LC-LT-RGBW-WIFI
DESCRIPTION	The WiFi-104 is the latest of our Wifi LED Controllers, allowing the user to control RGB+W, RGB, two tone, and Single Color LED Strip Light all from your smart phone or tablet. With this controller you do not have to switch from your home network to get back on the internet like our WiFi-102 Controller, but it still can be used remotely as it's own WiFi source. Each WiFi-104 can control up to twelve zones separately with unlimited receivers per zone. This means you can control any type of 5-24VDC in twelve places throughout your WiFi area. With output ratings of 4A x 4 channels this controller can handle up to 48W per channel or 192W when all channels are used. Each additional zone receiver can handle 5A x 4 channels or 60W per channel and 240W when all channels are being used. Includes one RF remote control.
