DESCRIPTION

Our 1.75" Round LED Recessed Lights with 60° beam angle are constructed of 316 type stainless steel for a higher level of resistance to corrosion throughout the 50,000 hour lifetime. Available in white, warm white, and RGB color changing this bulb will bring an elegant style of lighting to any outdoor or indoor space, with a smaller beam angle and more condensed lighting than our 120° fixtures. The IP67 waterproof rating makes this bulb suitable for outdoor in ground lighting projects. The single color white and warm white fixtures consume only 1.7W of power and can be dimmed using any 12VDC constant voltage PWM dimmer. The RGB color changing fixtures consume 3.0W of power and require a 12VDC constant voltage RGB controller for color changing functionality. The simple screw down base makes it easy to mount this fixture in any circular hole with a 1.3"-1.38" diameter(33-35mm) and thickness of 0.95" or less.

SUPPLY VOLTAGE 12VDC Constant Voltage

OPERATING HOURS 50,000 Hours

BEAM ANGLE 60°

DIMENSIONS 1.77" Diameter X 2.13" Depth (45mm Diameter x 54mm Depth)

WATTS White & Warm: 1.7W per fixture / RGB: 3.0W per fixture

OPERATING TEMP -4° ~ 131°F

IP RATING IP67

WARRANTY 1 year manufacturers
